Product Directory

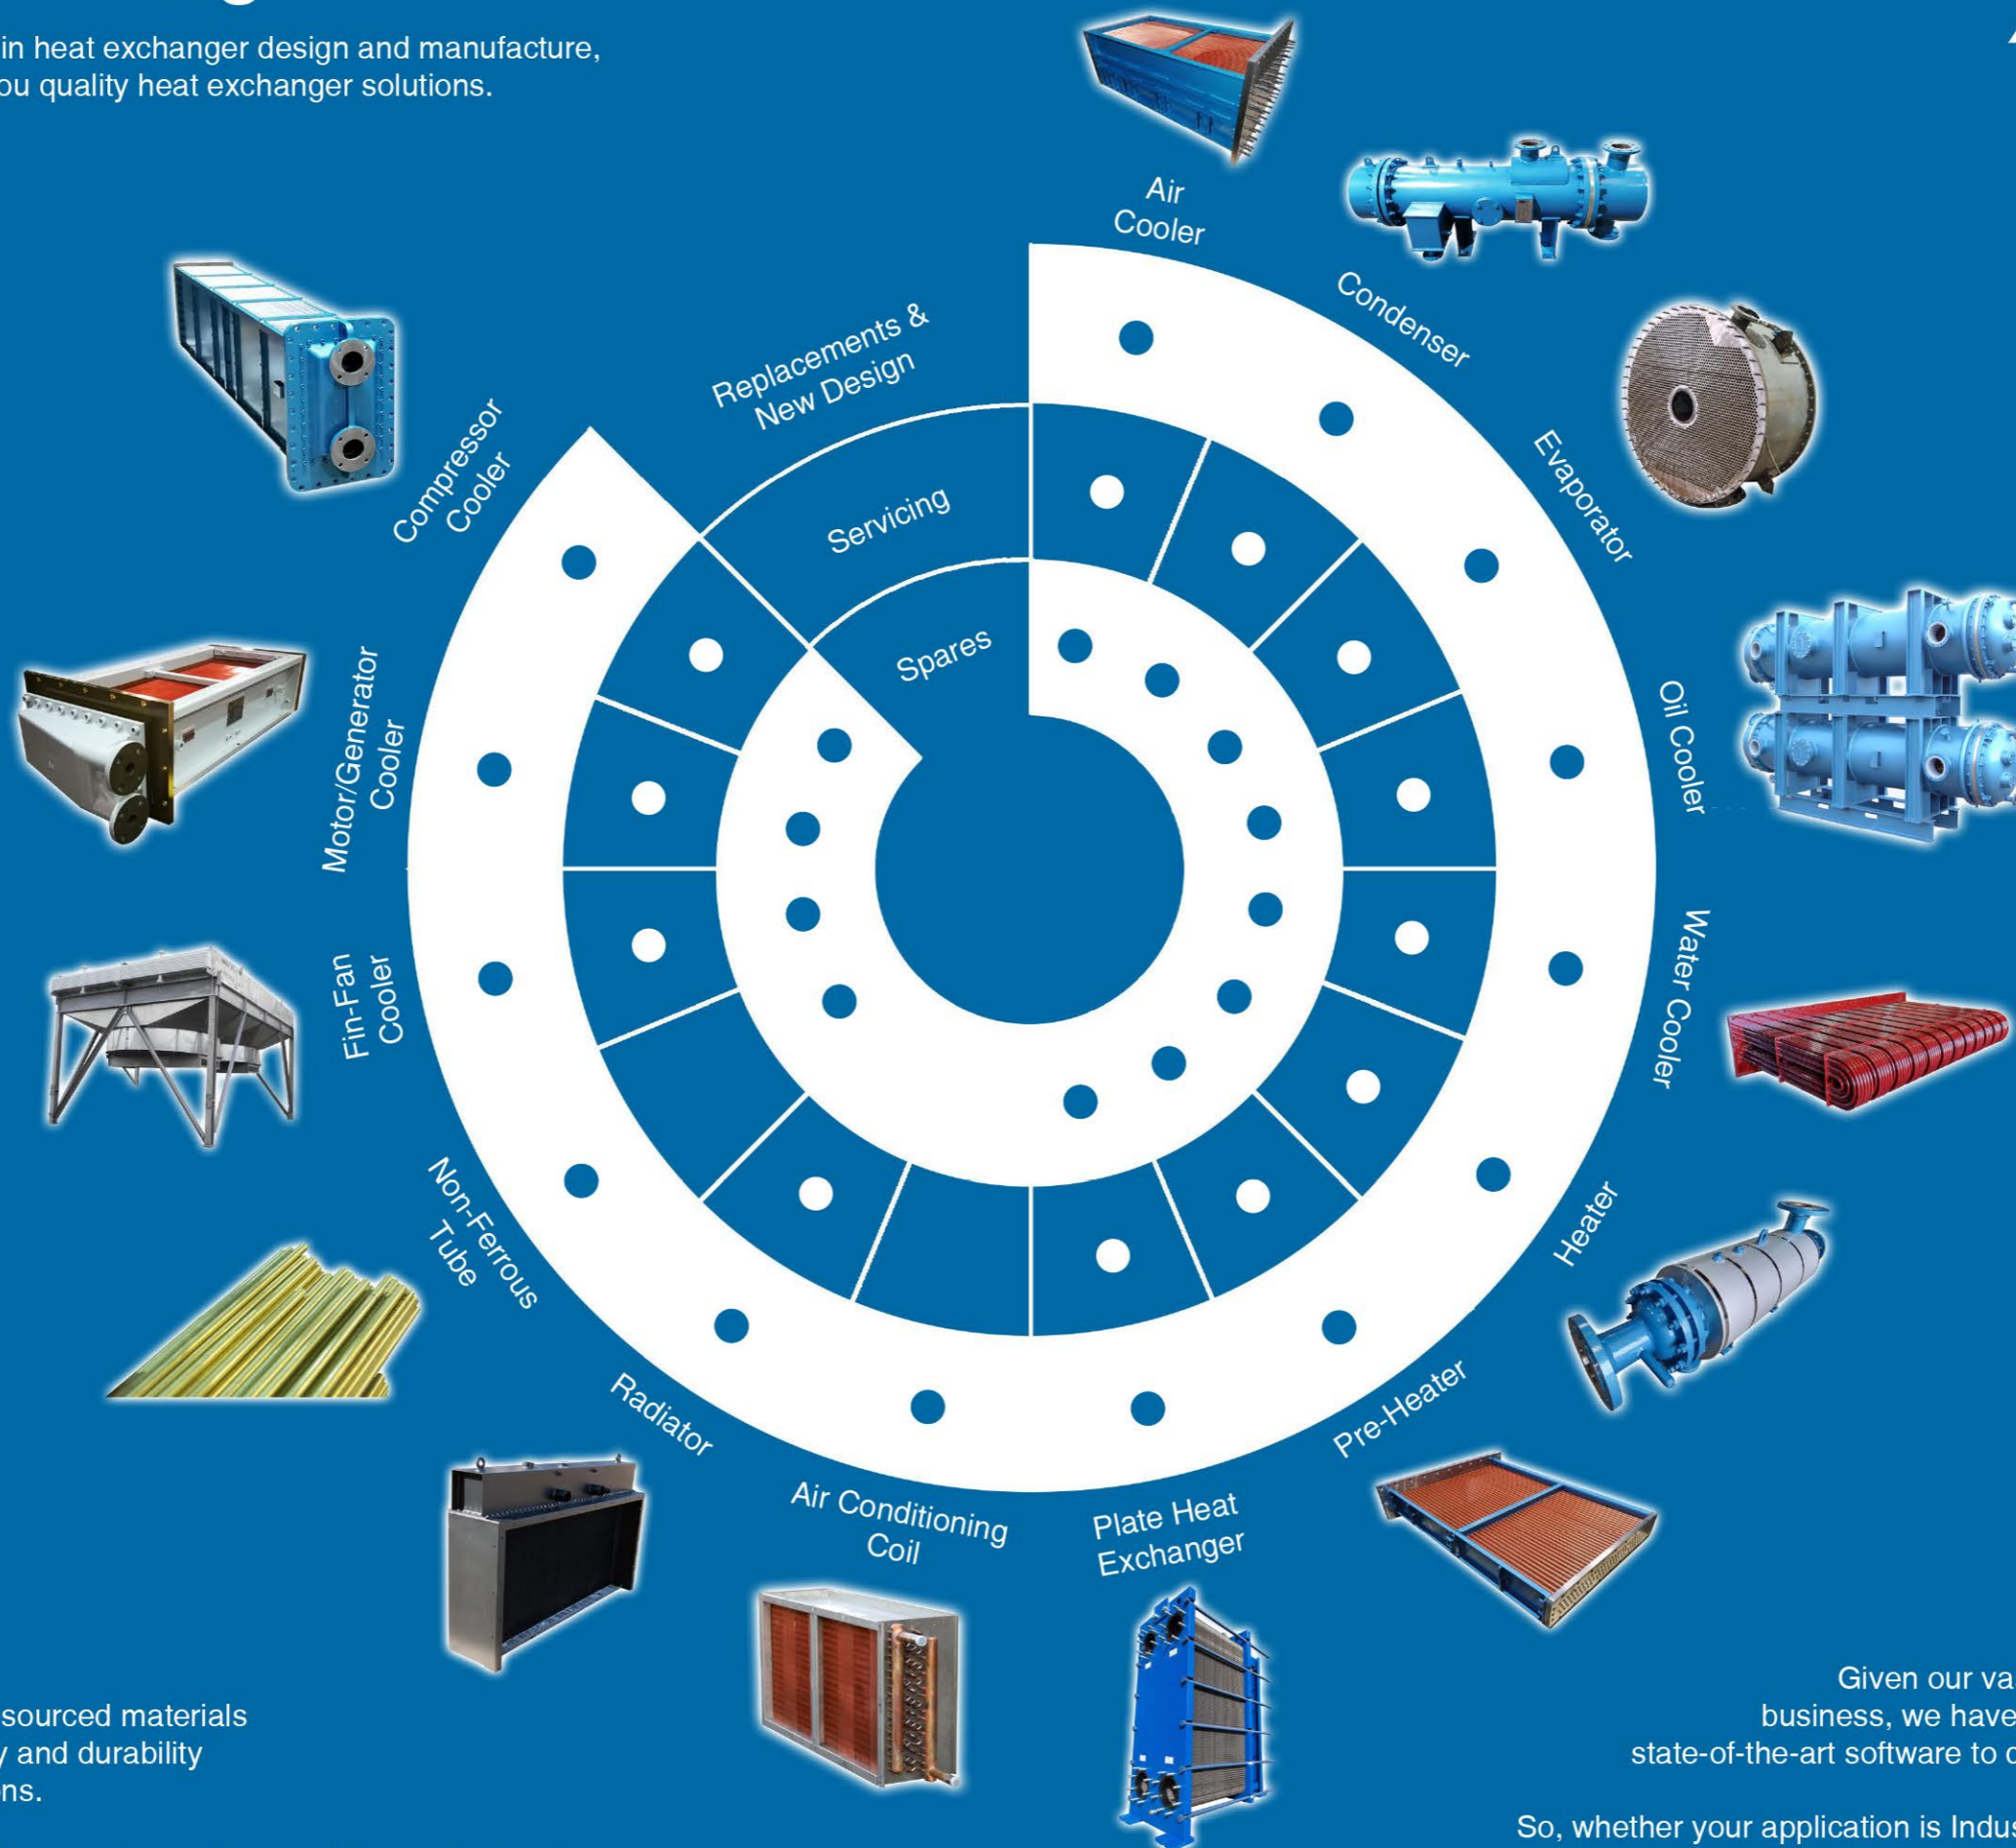

Our World of Heat Exchangers

With over 30 years' experience in heat exchanger design and manufacture, you can count on AMI to offer you quality heat exchanger solutions.

AMI

exchangers Ltd

Quality

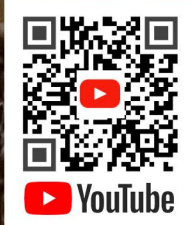

It is our policy to use European-sourced materials in our units. This assures quality and durability no matter the operating conditions.

Our quality is underwritten by full warranty on all new units manufactured.

Design

Given our vast experience in the heat exchanger business, we have extensive technical knowledge and state-of-the-art software to design to any codes or specification.

So, whether your application is Industrial, Marine, Rail or Green Energy, we can provide a solution for you.
